

TRACK STYLE PROJECT LIST

Build your own Team 48 Cornhole game with easy to follow instructions from Lowe's Creative Ideas magazine. It is designed for a beginner skill level, so is a great family project. The detailed directions and shopping list are below:

Instructions:

General: Cut and label the parts as needed, using the Cut List and Cutting Diagram as guides and adjusting for fit.

1. Cut the bag holes.

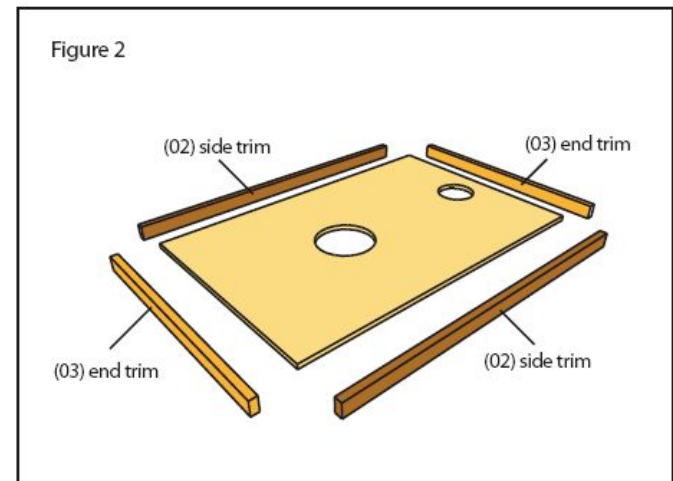

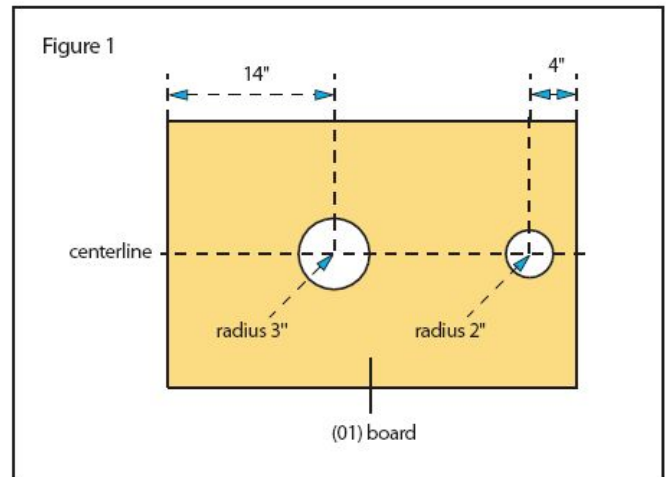

- Measure and mark the bag hole locations on the **(01)** board as shown in Figure 1.
- Use a compass and pencil to draw the outlines for the holes.
- Use a jigsaw to cut out the bag holes.

2. Attach the trim.

- Using glue and nails, attach the 1 1/2-inch side of the **(02)** side trim parts to the **(01)** board, with the ends flush and making the top edges flush with the face of the **(01)** board as shown in Figure 2. Note: This creates an approximate 1-inch reveal on the back face of the **(01)** board.
- Attach the 1 1/2-inch side of the **(03)** end trim parts to the **(01)** board and to the **(02)** side trim using glue and nails. The **(03)** end trim parts should cover the ends of the **(02)** side trim parts, and the top edges should be flush with the face of the **(01)** board as shown in Figure 3.

3. Paint the assembly, attach stand, door pull.

- Fill any holes with wood filler, sand, prime, paint, and allow to dry.
- Prime and paint the **(04)** stand, and allow to dry.
- Attach the **(04)** stand to the back of the **(01)** board with 1-inch utility hinges as shown in Figure 3.
- Attach a door pull in the center of one **(02)** side trim part.

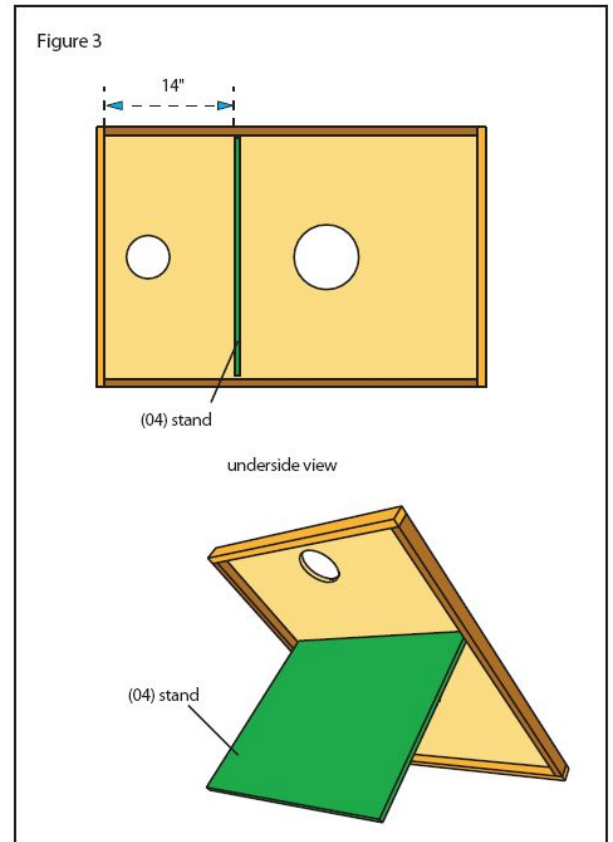

Tools You'll Need:

- Circular saw with a straightedge guide
- Jigsaw
- Power sander or sandpaper
- Drill/driver with bits or hammer and screwdriver
- Tape measure
- Compass
- Pencil

Lowe's List:

- 4 boards, 1 x 2 x 4
- 2 sheets of plywood, 15/32-inch x 2- x 4-foot
